

Brian Shultz

President

Bowtie Business Intelligence

Brian Shultz, President of Bowtie Business Intelligence, is responsible for overall performance of the business with a heavy emphasis on delighting customers. With more than 20 years in leadership roles including ABB's automation division, International Asset Systems, Navis, and the International Business Group, Brian brings a strong background in global operations, sales, marketing, product management and services within the technology industry. Brian is passionate about giving back and in building purpose-driven organizations. Bowtie provides him the perfect opportunity to build a successful business, delight customers and to serve the communities with whom Bowtie works.
